ANNUAL REPORT

OF

Name: WAUNAKEE TELEPHONE COMPANY

Principal Office: 301 S WESTFIELD RD

P.O. BOX 5158

MADISON, WI 53705-0158

For the Year Ended: DECEMBER 31, 1998

TELECOMMUNICATIONS UTILITY TO PUBLIC SERVICE COMMISSION OF WISCONSIN

P.O. Box 7854 Madison, WI 53707-7854 (608) 267-9504

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

GENERAL RULES FOR REPORTING

- 1. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records in conformity with the Uniform System of Accounts prescribed by the Public Service Commission of Wisconsin in docket 05-US-102. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
- 2. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used, however please show the exact name of the respondent in full on the "Identification and Ownership" page.
- 3. Wherever information is requested in a "note", please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
- 4. Numeric items are limited to digits (0-9). A minus sign "-" should be entered in the software program to indicate negative values. Do not use parentheses for numeric values. The program will convert the minus sign to parentheses when a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
- 5. Please report all dollar amounts to the nearest whole dollar.
- 6. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
- 7. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, that previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
- 8. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the notes to the income statement or the balance sheet, which describes the nature and extent of work performed.
- 9. Please print a hard copy of the annual report on 20 pound or heavier paper, sign it and compare with the electronic copy before officially filing it with the Public Service Commission of Wisconsin.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Access Line Central office line equipment, or equivalent, and all outside plant facilities, or equivalent,

required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a

64 kilobits per second digital channel.

Analog Signal A signal that varies in a continuous manner such as voice or music. An analog signal must be

contrasted with a digital signal which can assume only discrete values.

Cellular System A high capacity land mobile radio system in which an assigned frequency spectrum is divided

into discrete channels that are assigned to a cellular geographic serving area.

Central Office A switching unit in a telephone system providing service to the general public, having the

necessary equipment and operating arrangements for terminating and interconnecting lines

and trunks.

Centrex A service for customers with many stations that permits station-to-station dialing, one listed

directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office

(stand alone, host or remote).

Channel An electrical communications path between two or more points. A single pair of wires may

provide more than one channel. A channel may also be provided by microwave.

Customer A person who uses a telephone as a subscriber.

Digital Signal A signal that has a limited number of discrete states. This may be contrasted with an analog

signal that varies in a continuous manner and may have an infinite number of states.

Equal Access The ability of the subscriber to use any long distance service by dialing the same number of

digits.

Exchange A defined area served by one or more central offices regardless of technical serving

arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political

boundaries or the location of host or remote switching units.

Extended Area The ability of a customer to call customers in other exchanges at no additional charge or at an

Service (EAS) additional charge per tariff.

ExtendedThe ability of a customer to call customers in other exchanges at rates usually above EAS **Community**rates but below toll rates for comparable distances. Rates generally include a duration

Calling (ECC) element.

Feature Group A Line-side originating and terminating LATA access for which an originating subscriber dials an

assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Feature Group B Trunk-side originating and terminating LATA access for which an originating subscriber dials a

950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be

available.

Feature Group C Trunk-side LATA access for AT&T-Communications generally on a direct

basis between each end office (EO) and an AT&T-C switching system.

Feature Group D Also referred to as equal access. It is trunk-side LATA access affording call supervision of an

interexchange carrier, a uniform access code (10XXXXX), optional calling party identification,

recording of access-charge billing details and presubscription to a customer specified

interexchange carrier.

FX-IN A nonswitched service where the customer of the company is connected to and receives

switching service through central office equipment located in another exchange area.

FX-OUT A switched service where facilities are provided from the central office out to the exchange

boundary where it meets the line from a foreign exchange subscriber.

Host Switching System A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access

to the operating company intraLATA networks.

Local Access Transport Area (LATA) A geographic area within which an operating company may offer its telecommunications

services.

Mobile Telephone A service which provides radio telephone communication from a mobile vehicle to another

vehicle or to a regular telephone.

Paging A service which provides one-way signal or voice communication over a radio channel to a

miniature receiver carried by the customer.

Pair Two wires of a single circuit.

Pay Station A telephone which normally requires all users to deposit one or more coins or use a

credit card to complete a call.

Private Line Service Channel or circuit rented for private use and not intended to be connected to the general

distribution system.

Private Branch Exchange (PBX) A manually, or operator controlled switching system, usually on the customer's premises,

which serves that customer's telephones over a common group of lines from the central office.

Radio Common Carrier (RCC)

A company which furnishes public telecommunications service using one or more radio

channels.

Remote Switching An electronic switching system that is remote from its host or control office. All of the central

Unit (RSU) control equipment for the RSU is located in the host switching system.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Route Miles

Year ended: December 31,1998

Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of:

- 1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.
- 2. One mile of a cross country route with any combination of outside plant facilities.
- 3. One mile of point-to-point microwave or radio link.
- 4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.
- 5. One mile of joint use line where the utility either owns the facility or leases space.

Stand Alone Switch

A central office switch which has no remote switching units (RSUs) subtending it.

Trunk

A communications path connecting two switching systems in the establishment of an end-to-end connection.

Wide Area Telephone Service (WATS)

Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.

Wire Center

The location of one or more local switching systems. A point at which customers' loops converge.

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

 A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

TELEPHONE PLANT

Telephone plant is stated as the original cost of construction including capitalized costs such as taxes, pensions, and other fringe benefits, and an allowance for funds used during construction (AFUDC).

DEPRECIATION

The company provides depreciation for financial reporting purposes using the straight-line method. Renewals and betterments of units of property are charged to telephone plant in service. The original cost of depreciable property retired, together with removal cost less any salvage realized, is charged to accumulated depreciation. Repairs and renewals of minor items of property are charged to maintenance expense. No gain or loss is recognized in connection with ordinary retirements of depreciable property.

REVENUES

Operating and nonoperating revenues are recognized when earned regardless of the period in which they are billed.

Compensation for all intrastate service is received through tariffed access charges billed to the long distance carrier and retained by the company.

Compensation for interstate access services is received through tariffed access charges filed by the National Exchange Carrier Association (NECA) with the Federal Communications Commission (FCC) on behalf of the member companies. These access charges are billed by the company to the interstate long distance carrier, and pooled with like revenues from all NECA member companies.

PENSION

The company is a member of the Telephone and Data Systems, Inc. Employees' Pension Trust I. This qualified, noncontributory defined contribution pension plan covers substantially all company employees. Under this plan, pension benefits and costs are funded currently.

INCOME TAXES

The company is included in the TDS consolidated federal income tax return. For financial reporting purposes, the company computes its federal income tax by applying the statutory rate to all its taxable income.

The company uses the full-normalization method for all timing differences with the resulting book-tax differences being provisioned through the deferred tax accounts. Deferred income taxes resulting from accelerated depreciation used for income tax purposes had previously been provided through the depreciation accounts. Such deferred taxes are credited to income as the related timing differences reverse. Investment tax credits resulting from investments in qualifying telephone plant and equipment

Year ended: December 31,1998 Utility No. 6250 - WAUNAKEE TELEPHONE COMPANY

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

NOTES TO INCOME STATEMENT OR BALANCE SHEET

resorreing from finaescmenics fin dagriffind cerebione branc and edarbment have been deferred and are being amortized to income over the service lives of the related property.

2. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.

None

3. The notes should include an explicit and precise explanation of any retained earnings restrictions and should state the amount of retained earnings affected by such restrictions.

The company is restricted from transferring funds to the parent or other affiliates in the form of cash dividends until certain financial requirements of its mortgage indentures have been met. At December 31, 1998, the company has invested no funds with Telecommunications Technologies Fund, Inc., and could distribute up to \$1,363,329 to the parent or other affiliates in the form of cash dividends.

IMPORTANT CHANGES DURING THE YEAR

1. Give the name and address of all companies which during the year came under the direct control of the respondent otherwise than through title to securities, stating whether such control is sole or joint, how control was established, names of other parties to a joint agreement for control, the extent of control exercised by each party, and any other pertinent data requisite to a clear understanding of the arrangements relating to control (See Section 32.9000 of the Uniform System of Accounts). Where important details relating to control of a company have changed, give particulars. If during the year a company ceased to be controlled by the respondent, its name and a statement of fact will be sufficient.

None

2. Give the name and address of all companies which during the year came under the indirect control of the respondent through non-reporting intermediaries, stating whether such control is sole or joint, how control was established, names of other parties to a joint agreement for control, the extent of control exercised by each party, the name and address of the intermediary through which the indirect control exists, and any other pertinent data requisite to a clear understanding of the arrangements relating to control (See Section 32.9000 of the Uniform System of Accounts). Where important details relating to control of a company have changed, give particulars. If during the year a company ceased to be controlled by the respondent, its name and a statement of fact will be sufficient.

None

3. Important leaseholds acquired, given, assigned or surrendered, giving effective dates, lengths of terms, names of parties, rents, and other conditions.

None

4. List extension of system (other than additions supplementing existing facilities of the respondent) whether by purchase, construction, donation, or otherwise, such as a substantially complete telephone system, exchange or toll line. Give the location, new territory covered, and dates of beginning operation, and in case of purchase give also the name and address of the company from which purchased, date of acquisition, the consideration given, and reference to Commission authorization.

None

5. Estimated increase or decrease in annual revenues due to important rate changes, giving bases of estimates.

None

6. Obligation incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, excluding ordinary commercial paper maturing on demand or not later than one year after date of issue.

None

7. Changes in articles of incorporation or amendments to charter.

None

Date Printed: 04/22/2004 2:23:23 PM

8. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.

The Company has adopted the American Institute of Certified Public Accountants, Accounting Standards Executive Committee, Statement of Position 98-1, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use in 1998.

AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25,000 or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000,000, individual contracts or arrangements not exceeding \$100,000 may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing and categorize billings according to the account categories shown below.

AFFILIATED ASSETS AND LIABILITIES

This schedule should be used to report affiliated activity concerning balances at the end of the year for the following accounts: 1120, Cash and Equivalents; 1160, Temporary Investments; 1180, Telecommunications Accounts Receivable; 1190, Other Accounts Receivable; 1210, Interest and Dividends Receivable; 1401, Investment in Affiliated Companies; 4010, Accounts Payable; and 4260, Advances from Affiliated Companies. Amounts at the end of the year for each affiliate should be identified by respective affiliate and account number. Report information below consecutively by respective account number; affiliated amounts of less than \$5,000 may be reported in aggregate as "other" for a particular account. Affiliated amounts recorded in accounts 1200, Notes Receivable, 1408, Sinking Funds, and 4020, Notes Payable, should not be reported in this schedule, but rather in the respective schedules contained elsewhere in this report.

Name of Affiliate (a)	Account Number (b)	Balance EOY (c)

ACCUMULATED DEPRECIATION CLASS A & B (SUB-CLASS ACCOUNTS)

Where subclassifications of primary plant accounts are used, report below the accumulated depreciation details for each subaccount. Amounts pertaining to subaccount 2212.4, Test Equipment, should be reported in account 2212.2, Digital Switching - Central Office; amounts for subaccounts 2231.3, Microwave, 2231.4, Cellular, 2231.5, Mobile Radio, and 2231.6, Paging, should be included in 2231.2, Other Radio Facilities; amounts pertaining to subaccounts 2232.4, Digital Data Services, 2232.5, Digital Circuit - Subscriber, 2232.6, Digital Circuit - Trunk - Toll, and 2232.7, Concentrators, should be reported in 2232.1, Digital Circuit Equipment. Any other separate accounting for telephone accumulated depreciation at an individual telephone company should be consolidated and reported in the primary accounts as defined in the uniform system of accounts.

NET DEFERRED OPERATING INCOME TAXES (ACCT. 1350, 1410, 1437, 4100, 4340, 4341 & 4361)

This schedule should be used to report the deferred operating income tax portion of the stated accounts. In addition, column (e) of this schedule should be used to report the flowback of property related excess deferred taxes (e.g., 46 percent versus 34 percent federal tax rates). Credit amounts should be shown in ().

LONG-TERM DEBT

Report data requested and show total for each long-term debt account at end of year. Information concerning the following debt issues may be reported on individual lines in aggregate: REA/RTB 2%, REA/RTB 5%, & REA/RTB 7%. In addition, REA/RTB and FFB debt, respectively, within a range of 200 basis points may also be reported in aggregate on individual lines. If reported in aggregate, a range of dates may be reported in columns (b) and (c) as well as a range of interest rates in column (d) and a composite interest rate in column (e). If aggregation is not utilized, column (e) should contain the same interest rate as reported in column (d). For account 4050 report only the amount of debt anticipated to be repaid in one year or less.

Description of Debt (a)	Specific or Range of Stated Dates of Issue (b)	Specific or Range of Stated Dates of Maturity (c)	Specific or Range of Interest Rates (d)

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

General Footnote

October 27, 1999

Mr. John R. Erpenbach, Accounting Manager Waunakee Telephone Company 301 South Westfield Road P.O. Box 5158 Madison, WI 53705-0158

Re: 1998 Analytical Review DWCCA-6250-PJL

Dear Mr. Erpenbach:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utilitys 1998 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

- 1. During our review, we noted that first of year video distance learning is reported as 0 on the Service Data schedule, page 51, and end of year is reported as 1. There is no footnote for this activity. The schedule reference sheet for this schedule, Operations Manual 1998 annual report, indicates there is an edit check for first of year 0, end of year greater than 0 requiring "a footnote indicator and associated explanation." Please provide the explanation for this situation.
- 2. Please file a revised page 15 to reflect corrections to the 1998 annual report as discussed with Chris Larson of our staff during the recent annual review of the earnings of small telecommunications utilities.
- 3. Staff review of page 47 reveals that information related to telephone calls and minutes of use per month are either partially provided or not provided at all. Further, no footnote is provided as to the reason(s) for not furnishing this information.

Your attention is drawn to the instructions for filing this data shown in the Commission staff e-mail dated November 19, 1998, concerning the 1998 report and the schedule reference sheet for page 47, Telephone Calls and Minutes of Use Per Month, in the 1998 Operations Manual. Even though the Commission is not requiring your company to furnish this data for the 1998 annual report due to time constraints, all efforts should be made to provide this information for the 1999 annual report due April 1, 2000. It cases where actual data cannot be made available for the 1999 report, estimated number of calls and minutes of use per month may be provided. Non availability of this information should be documented in a footnote that states clearly the reason(s) as to why it is not available and outlines the actions taken by the company to obtain such information (such as the results of discussions with switch vendors and the cost associated with adding this feature to the switching equipment or software).

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Please note that if your response to this letter contains any data that you want to be subject to confidential treatment, you must submit a confidentiality request form with your response.

Sincerely,

Peter J. Leege Financial Specialist Division of Water, Compliance, and Consumer Affairs
